Introducing AYRE

When it comes to performance on the trading floor, there is no room for compromise. Your success depends on connecting with the right person at the right time. In a “trade from anywhere” world, how do you make this happen?

AYRE is a powerful trading turret, giving you what you need most, when you need it – instant, real-time communications that are always secure and always compliant.

It maximises your productivity by connecting you to clients and colleagues at the touch of a button. It lets you prioritise and control your most important communications on a single screen.

AYRE has been engineered for advanced performance in the most demanding trading environments.

Smart. Simple.
It's a breath of fresh AYRE.

Smart. Simple. It's designed for you.

Simplicity

Traders don't have time to adapt to different tools depending on their location. That's why we designed AYRE. With its simple interface it's instantly recognisable, and it works the same across all devices.

Usability

With the right tools for the job, everything's easier. Designed to look and feel great, with a flexible touchscreen and buttons right where you want them, AYRE lets you communicate effortlessly. So you can focus on what matters — trading.

Flexibility

Every trader is different and so is the way they like to communicate. AYRE gives you the freedom to customise your workflow and give your clients exactly what they need.

Extensible

AYRE's open architecture can be integrated into your overall trading workflow, so it works with other communication channels and apps — increasing productivity.

Cutting-edge

AYRE delivers valuable new capabilities thanks to its intuitive software, giving you the latest features and eliminating the need to buy new hardware.

Open

Thanks to our open API, AYRE adapts to your business, increasing customer satisfaction and driving efficiency — making you more competitive.

Why AYRE?

Whenever, wherever —
all you need is AYRE.

In a world of rapid change, staying on top of markets is more challenging than ever. With AYRE you can trade anywhere: from home, the office, or wherever life takes you.

Engineered to perform to the highest standard, AYRE is a game-changer, leveraging over three decades of experience in the most demanding of trading environments.

Straightforward set up with full expert support

Speakerbus is one of the most trusted names in the world of critical voice communications.

Our products help traders communicate seamlessly allowing them to focus on what's happening in the market and operate at peak performance — giving them a competitive edge.

We know that consistent execution for your clients, demands flawless communication that's always available, easy to use and works every time. Without compromise.

Our customers trust us to deliver secure, scalable, ultra-reliable solutions. Whether it's flexible software architecture enabling integration with messaging and collaboration platforms, encryption that safeguards client privacy, or advanced recording capability to ensure regulatory compliance.

AYRE has been designed to address the massive changes in the way traders communicate and how companies must manage their communications.

Your clients come to you because they expect the best, that's why you should come to us. AYRE adapts to your business so there's no need to compromise.

Why Speakerbus?

With a wealth of experience, we're global experts in our field. Our customers rely on us to help them reach their goals. We understand what your organisation needs the most and provide you with solutions adapted to your fast-changing working environment. We're committed to building long-lasting and rewarding business relationships that work for everyone.

AYRE guarantees a quality connection, anytime, any place — enabling integration with your internal operating systems and instant messaging platforms. We effortlessly take the design and features we know you trust and need, and combine them with slick, modern updates, to create an intuitive and simple user interface.

We have designed AYRE to be agile, with an advanced software system that can respond and update to your rapidly changing business requirements. So you can work comfortably and faster, without missing a beat.

AYRE doesn't compromise and neither should you.
